To the Management and Board of Education Freeport Area School District

Independent Auditor's Report

Report on Financial Statements

I have audited the accompanying financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Freeport Area School District as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

My responsibility is to express opinions on these financial statements based on my audit. I conducted my audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that I plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Freeport Area School District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Freeport Area School District's internal control. Accordingly, I express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

Opinions

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Freeport Area School District as of June 30, 2017 and the respective changes in financial position and, where applicable, cash flows thereof and the budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Change in Accounting Principle

As discussed in Note 1 to the financial statements, the District adopted new accounting guidance GASB Statement No. 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions". My opinions are not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages iv-xiv and the other required supplementary information on pages 42-44, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

My audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Freeport Area School District's basic financial statements. The accompanying supplementary schedules are presented for purposes of additional analysis and are not a required part of the financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is also not a required part of the basic financial statements.

The supplementary schedules and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In my opinion, the schedule of expenditures of federal awards is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, I have also issued my report dated December 13, 2017 on my consideration of the Freeport Area School District's internal control over financial reporting and on my tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of my testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Freeport Area School District's internal control over financial reporting and compliance.

FREEPORT AREA SCHOOL DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)

Required Supplementary Information (RSI) June 30, 2017

The discussion and analysis of Freeport Area School District's financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2017. The intent of this discussion and analysis is to look at the District's financial performance as a whole. Readers should also review the financial statements and accompanying notes to the financial statements to enhance their understanding of the District's financial performance.

The Management Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34 Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments. Certain comparative information between the current year and the prior year is required to be presented in the MD&A.

FINANCIAL HIGHLIGHTS

The District's total governmental activities liabilities and deferred inflows of resources exceeded total assets and deferred outflows of resources as of June 30, 2016 by \$17,386,080 (net position – deficit). This was a decrease of \$1,092,990 over June 30, 2016. This decrease was mainly the result of the District's implementation of GASB 68 'Accounting and Financial Reporting for Pensions', during the 2014-2015 fiscal year. The District is now required to recognize their proportionate share of the Pennsylvania School Employees Retirement System (PSERS) overall net pension obligation. For the Freeport Area School District, this liability stands at \$45,943,380 for governmental funds and \$937,620 for business-type activities as of June 30, 2017.

The School District had governmental funds revenues and other financing sources (uses) of \$29,765,357 (excluding transfers) and governmental fund expenditures of \$30,375,340 (excluding transfers) for the fiscal year ended June 30, 2017. The net change in fund balance for all governmental funds was a decrease of \$609,983 with a total fund balance at June 30, 2017 of \$9,153,619. These amounts are reflected on the Statement of Revenues, Expenditures, and Changes in Fund Balance – Governmental Funds (Exhibit E).

The General Fund total fund balance decreased by \$1,369,988 to \$7,014,110 of which \$3,984,376 is unassigned and is approximately equal to 13% of the 2017-2018 General Fund Budget. The Capital Projects Fund total fund balance increased by \$748,347, primarily due to a \$2,000,000 transfer from the General Fund. The Debt Service Fund total fund balance increased by \$11,658 due to debt service payments being less than transfer from the General Fund.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts: management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the district:

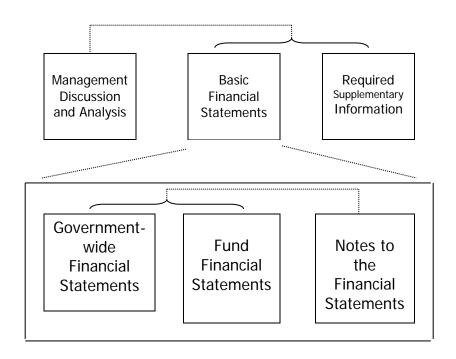

- The first two statements are government-wide financial statements the Statement of Net Position and the Statement of Activities. These provide both long-term and short-term information about the District's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the Districts operations in more detail than the government-wide statements. The governmental fund statements tell how general District services were financed in the short term as well as what remains for future spending. Proprietary fund statements offer short-term and long-term financial information about the activities the District operates like a business, which for this District is the Food Service Fund. Fiduciary fund statements provide information about financial relationships where the District acts solely as a trustee or agent for the benefit of others to whom the resources in question belong.

OVERVIEW OF THE FINANCIAL STATEMENTS (Continued)

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data.

Figure A-1 shows how the required parts of the Financial Section are arranged and relate to one another:

Figure A-1 Required components of Freeport Area School District's Financial Report

FREEPORT AREA SCHOOL DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)

Required Supplementary Information (RSI) June 30, 2017

OVERVIEW OF THE FINANCIAL STATEMENTS (Continued)

Figure A-2 summarizes the major features of the District's financial statements, including the portion of the District they cover and the types of information they contain. The remainder of this overview section of management discussion and analysis explains the structure and contents of each of the statements.

OVERVIEW OF THE FINANCIAL STATEMENTS (Continued)

Government-wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's net position and how they have changed. Net position, the difference between the District's assets and liabilities, are one way to measure the District's financial health or position.

Over time, increases or decreases in the District's net position are an indication of whether its financial health is improving or deteriorating, respectively.

To assess the overall health of the District, you need to consider additional non-financial factors, such as changes in the District's property tax base and the performance of the students.

The government-wide financial statements of the District are divided into two categories:

- Governmental activities All of the District's basic services are included here, such as instruction, administration and student activities. Property taxes and state and federal subsidies and grants finance most of these activities.
- Business type activities –The District operates a food service program and charges fees to staff, students and visitors to help cover the costs of operation.

Fund Financial Statements

The District's fund financial statements provide detailed information about the most significant funds – not the District as a whole. Some funds are required by state law and by bond issue requirements.

Governmental funds – Most of the District's activities are reported in governmental funds, which focus on the determination of financial position and change in financial position, not on income determination. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's operations and the services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

FREEPORT AREA SCHOOL DISTRICT MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)

Required Supplementary Information (RSI) June 30, 2017

OVERVIEW OF THE FINANCIAL STATEMENTS (Continued)

Fund Financial Statements (Continued)

Proprietary funds – These funds are used to account for the District activities that are similar to business operations in the private sector; or where the reporting is on determining net income, financial position, changes in financial position, and a significant portion of funding through user charges. When the District charges customers for services it provides – whether to outside customers or to other units in the District – these services are generally reported in proprietary funds. The Food Service Fund is the District's proprietary fund and is the same as the business-type activities we report in the government-wide statements, but provide more detail and additional information, such as cash flows.

Fiduciary funds - The District is the trustee, or fiduciary, for a student activities fund in the secondary schools and a private purpose trust fund for post-secondary scholarships. All of the District's fiduciary activities are reported in separate Statements of Fiduciary Net Position. We exclude these activities from the District's other financial statements because the District cannot use these assets to finance its operations.

quired Supplementary Information (RS)
June 30, 2017

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE (Continued)

The increase in deferred outflows of resources, long-term liabilities, and deferred inflows of resources, along with the significant decrease in the District's net position is attributed to implementation of GASB 75 during the 16-17 fiscal year and the aforementioned implementation of GASB 68 during fiscal year 2014-0215 which required the District to recognize their proportionate share of the Pennsylvania School Employees Retirement System (PSERS) overall net position obligation, which for the Freeport Area School District, totals \$45,943,380 for its governmental activities and \$937,620 for its business-type activities.

Some of the District's net position is invested in capital assets (buildings, land, land improvements and equipment). The remaining unrestricted net position is a combination of committed and unassigned amounts.

The results of this year's operations as a whole are reported in the Statement of Activities. All expenses are reported in the first column. Specific charges, grants, revenues and subsidies that directly relate to specific expense categories are represented to determine the final amount of the District's activities that are supported by other general revenues. The two largest general revenues are the Basic Education Subsidy provided by the Commonwealth of Pennsylvania, and the local taxes assessed to community taxpayers.

Table A-2 takes the information from that Statement and rearranges it slightly so you can see the total revenues for the year.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE (Continued)

The increase in expenses reflects again the effects of the implementation of GASB Statement No. 68 implemented during the 2014-2015 fiscal year.

The tables below present the expenses of both the Governmental Activities and the Business-type Activities of the District.

Table A-3 shows the District's nine largest functions - instructional programs, instructional student support, administrative, operation and maintenance of plant, pupil transportation, student activities, community services, scholarships and awards, and food service as well as each program's net cost (total cost less revenues generated by the activities). This table also shows the net costs offset by the other unrestricted grants, subsides and contributions to show the remaining financial needs supported by local taxes and other miscellaneous revenues.

The Statement of Revenues, Expenses and Changes in Fund Net Position for this proprietary fund will further detail the actual results of operations.

THE DISTRICT FUNDS

At June 30, 2017, the District governmental funds reported a combined fund balance of \$9,153,619 which is a decrease of \$609,983. The primary reason for this decrease is related to the Capital Projects Fund having construction expenses for the middle school, stadium, and other projects of \$1,261,572 for the fiscal year ended June 30, 2017.

General Fund Budget

During the fiscal year, the Board of Directors authorizes revisions to the original budget to accommodate differences from the original budget to the actual expenditures of the District. All adjustments are again confirmed after the annual financial report is substantially completed, which is after the end of the fiscal year, as permitted by state law. A schedule showing the District's original and final budget amounts compared with amounts actually paid and received is provided in the financial statements.

Transfers between specific categories of expenditures and financing uses occur during the year. The most significant transfers occur from one specific expenditure area to other specific expenditure areas since the original budget only included a budgetary reserve of \$516.

A total of \$2,431,805 in budgetary transfers was made during the fiscal year. The primary reason for the budgetary transfers is unanticipated expenses occurring within school departments or buildings as well as unanticipated changes in the Pennsylvania Department of Education's chart of accounts. Excess funds are then transferred from different functions or object with the school department or building.

CAPITAL ASSET AND DEBT ADMINISTRATION

CAPITAL ASSETS

At June 30, 2017, the District had \$58,106,937 invested in a broad range of capital assets, including land, land improvements, buildings and furniture and equipment.

Table A-5 Governmental Activities Capital assets - net of depreciation

	2016	2017
Land & Improvements	\$1,917,731	\$5,952,255
Buildings &	\$18,178,686	\$18,158,480
Improvements		
Furniture & Equipment	\$1,306,853	\$1,107,384
Construction in Progress	\$36,502,055	\$32,888,818

The most significant addition to the capital assets was the middle school project.

DEBT ADMINISTRATION

As of July 1, 2016, the District had total outstanding bond principal of \$43,785,000. During the year, the District made payments against principal of \$2,045,000 resulting in ending outstanding debt as of June 30, 2017 of \$41,740,000:

Table A-6 Outstanding Debt

	 2016		2017
GENERAL OBLIGATION BONDS			
Series G of 2005	\$ 7,700,000	\$	5,700,000
Series of 2014	20,205,000		20,170,000
Series A of 2014	5,890,000		5,885,000
Series of 2015	9,990,000		9,985,000
	\$ 43,785,000	\$	41,740,000

Other long-term obligations include accrued compensated absences and other postemployment benefits for employees of the District. More detailed information about long-term liabilities is included in the Notes to the financial statements.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

The District is continuing to experience increased residential and commercial development which has resulted in a gradual increase in assessed property values. Overall, assessed values in Armstrong and Butler County have increased 1.6% as of November 31, 2017 as compared to certified assessed values as of June 30, 2017.

The general fund expenditure budget for 2017-2018 is \$30,778,398 with \$16,413,755 coming from local revenue sources, \$12,848,668 coming from state sources, \$326,616 coming from federal sources and \$1,000 coming from other financing sources along with the use of fund balance of \$1,188,359. This budget reflects an increase of 1.8% from the prior year, with an increase of 2.7% in local real estate taxes.

Total general fund balance is anticipated to be \$5,825,751 on June 30, 2018. The school board on June 13, 2007 committed \$1,000,000 of the unassigned general fund balance for the purpose of deferred maintenance, such as, but not limited to, roof replacement, district paving, and equipment replacement; on March 8, 2010 the school board committed \$1,000,000 of the unassigned fund balance for the purpose of offsetting future retirement costs; on February 9, 2011 the school board committed an additional \$1,000,000 for the purpose of offsetting accumulated post-employment benefits; and on May 9, 2012 the school board committed an additional \$1,000,000 for replacement of the eighty nine year old junior high school. In 2016-2017, the district expended the remaining balance of the \$1,000,000 committed fund balance related to the replacement of the junior high school. The total committed fund balance at June 30, 2017 is now \$3,000,000.

The comparison of revenue and expenditure categories is as follows:

Table A-7
BUDGETED REVENUES

	2017-2018	2016-2017
Local	55.5%	55.3%
State	43.4%	43.6%

FREEPORT AREA SCHOOL DISTRICT RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET POSITION JUNE 30, 2017

Total Fund Balances - Governmental Funds	\$ 9,153,619
Amounts reported for governmental activities in the statement of net position are different because:	
Capital assets used in governmental activities are not financial resources, and therefore, are not reported as assets in governmental funds. The cost of assets is \$82,384,680, and the accumulated depreciation is \$24,277,743.	58,106,937
Deferred outflows and inflows of resources related to pensions are applicable to future periods and, therefore, are not reported in the funds.	
Deferred outflows of resources related to pensions	8,724,059
Deferred inflows of resources related to pensions	(486,080)
Deferred outflows and inflows of resources related to OPEB are applicable to future periods and, therefore, are not reported in the funds.	
Deferred outflows of resources related to OPEB	45,322
Deferred inflows of resources related to OPEB	(304,328)
Property and wage taxes receivable in the statement of net position, which will not be available soon enough to pay for the current period's expenditures, are deferred and not recognized as revenue in governmental funds.	1,031,522
Long term liabilities, including bonds payable, are not due and payable in the current period, and therefore, are not reported as liabilities in the governmental funds. Long-term liabilities at year end consist of:	
Bonds and Notes Payable \$ 41,740,000 Net Pension Liability (from pension schedule) 45,943,380 Accrued Compensated Absences 1,577,717 Net OPEB Obligation 4,396,034	(93,657,131)

\$ 315,457

FREEPORT AREA SCHOOL DISTRICT RECONCILATION OF THE GOVERNMENT FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2017

TOTAL NET CHANGE IN FUND BALANCES - GOVERNMENTAL FUNDS	\$ (609,983)
Amounts reported for governmental activities in the statement of activities are different because:	
Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlays (\$1,375,408) exceeded depreciation expense (\$1,173,796) during the fiscal year.	201,612
Governmental funds report district pension contributions as expenditures. However, in the statement of activities, the cost of pension benefits earned net of employee contributions is reported as pension expense.	(1,319,576)
Repayment of note and bond principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.	2,045,000
Because certain property and wage taxes will not be collected for several months after the District's fiscal year ends, they are not considered as "available" revenues in the governmental funds. Deferred inflow of resources increased by this amount this year.	30,465
In the statement of activities, certain operating expenses - compensated absences and retiree benefits - are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (paid). This is the amount by which compensated absences and retiree health benefits earned exceeded the amount paid.	(32,061)
oxoccaca the amount para.	 (02,001)

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

DESCRIPTION

The Freeport Area School District was established under the authority of an act of the state legislature that designated a school board as the governing body. The School District is located in the southwestern part of Armstrong and the southeastern part of Butler Counties. This District serves the surrounding municipalities that include South Buffalo Township and Freeport Borough in Armstrong County and Buffalo Township in Butler County. Approximately 55% of the land area is located in Armstrong County. The School District operates under a locally-elected nine member Board form of government and provides educational services as mandated by the Commonwealth of Pennsylvania and selected federal agencies. The Board of Directors has complete authority over the operations and administration of the School District's activities. The School District owns and operates two elementary school buildings, one middle school building, and one senior high school building for its total enrollment of approximately 1,900 students in grades Kindergarten through12th grade.

The financial statements of the Freeport Area School District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (Statements and Interpretations).

The most significant of the School District's accounting policies are as follows:

REPORTING ENTITY

A reporting entity is comprised of the primary government, component units and other organizations that are included to ensure the financial statements are not misleading. The primary government of the Freeport Area School District consists of all funds, departments, boards and agencies that are not legally separate from the School District. As defined by GASB Statement No. 14, component units are legally separate entities that are included in the School District's reporting entity because of the significance of their operating or financial relationship with the School District. Based on application of these criteria, the Freeport Area School District has no component units.

The School District is associated with two jointly governed organizations (Note 12) and one public entity risk pool (Note 14). These organizations are:

- Jointly Governed Organizations:
 Lenape Area Vocational Technical School
 ARIN Intermediate Unit 28
- Public Entity Risk Pool:
 Armstrong-Indiana Insurance Trust

BASIS OF PRESENTATION

GOVERNMENT-WIDE FINANCIAL STATEMENTS – The statement of net position (Exhibit A) and the statement of activities (Exhibit B) display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the School District that are governmental and those that are considered business-type activities.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

BASIS OF PRESENTATION (Continued)

The government-wide statements are prepared using the economic resources measurement focus. That is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include reconciliations (Exhibits D and F) with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities (Exhibit B) presents a comparison between direct expenses and program revenues for the District's business-type activities (food service operations) and for each function of the School District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, and grants, subsidies and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues of the School District. The comparison of direct expenses with program revenues identifies the extent to which the business-type activity or government function is self-financing or draws from the general revenues of the School District.

FUND FINANCIAL STATEMENTS – Fund financial statements report detailed information about the School District. Under GASB Statement No. 34, the focus of the fund financial statements is on major funds. Major funds represent the District's most important funds and are determined based on percentages of assets, liabilities, revenues, and expenditures/expenses. For Pennsylvania school districts, the General Fund and Food Service Fund are always considered major funds. Each major fund is presented in a separate column. Non major funds are segregated and presented in a single column. Fiduciary funds are reported by fund type.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental fund types are accounted for using a flow of current financial resources measurement focus. The financial statements for governmental funds are a balance sheet, which generally includes only current assets and current liabilities, and a statement of revenues, expenditures and changes in fund balances, which reports on the sources (revenues and other financing sources) and uses (expenditures and other financing uses) of current financial resources.

All proprietary fund types are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and all liabilities associated with the operation of these funds are included on the statement of net position. The statement of changes in fund net position presents increases (revenues) and decreases (expenses) in net total assets. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its proprietary activities.

Fiduciary funds are reported using the economic resources measurement focus.

FUND ACCOUNTING

The School District uses funds to report on its financial position and the results of its operations during the year. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain school district functions or activities. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. Funds are classified into three categories: governmental, proprietary and fiduciary. Fund categories are defined as follows:

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

FUND ACCOUNTING (Continued)

<u>Governmental Funds</u> – Governmental funds focus on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. A description of the School District's major governmental funds is as follows:

MAJOR GOVERNMENTAL FUNDS:

GENERAL FUND - The General Fund is used to account for all financial resources not required to be accounted for in some other fund. The General Fund balance is available for any purpose provided it is expended according to the Commonwealth of Pennsylvania Public School Code.

CAPITAL PROJECTS FUND - The Capital Projects Fund accounts for financial resources used for the acquisition or construction of capital assets, as deemed necessary by the Board of Directors.

NON-MAJOR GOVERNMENTAL FUNDS:

DEBT SERVICE FUND - The Debt Service Fund accounts for the accumulation of resources for, and the payment of, general long-term debt, principal, interest and related costs.

<u>Proprietary Funds</u> – The Proprietary Fund is used to account for activities similar to those found in the private sector, where the determination of net income is necessary and useful for sound financial administration. Goods or services from such activities can be provided either to outside parties (enterprise funds) or to other departments or agencies within the School District (internal service funds). The School District's major and sole enterprise fund is its Food Service Fund, which accounts for the financial transactions related to the food service operations of the District.

Fiduciary Funds – Fiduciary fund reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the School District's own programs. Agency funds are custodial in nature and do not involve measuring income or any other results from operations. The School District maintains one private-purpose trust fund. The private-purpose trust fund accounts for student scholarships and is funded through the Slivan Memorial Scholarship Fund. The School District also maintains an Agency Fund which accounts for various student organization activity accounts administered by the District on behalf of the various student organizations.

BASIS OF ACCOUNTING AND MEASUREMENT FOCUS

The basis of accounting determines when transactions are recorded in the financial records and reported in the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Government funds use the modified accrual basis of accounting. Proprietary and fiduciary funds use the accrual basis of accounting.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

BASIS OF ACCOUNTING AND MEASUREMENT FOCUS (Continued)

Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the School District, available means expected to be received within sixty days of fiscal year-end.

Revenue resulting from non-exchange transactions, in which the School District receives value without directly giving equal value in return, includes property taxes, grants and contributions. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenues from grants and contributions are recognized in the fiscal year in which all eligibility requirements have been satisfied. On a modified accrual basis, revenue from non-exchange transactions must also be 'available' before it can be recognized.

The management of the Freeport Area School District has determined that the revenues most susceptible to accrual (measurable and available) at June 30, 2017 under the modified accrual basis are 1) Act 511 taxes collected by the district within 60 days following the close of the fiscal year, 2) federal and state subsidies earned in the fiscal year 2016-2017, and 3) other miscellaneous revenues earned in fiscal year 2016-2017 but received subsequent to June 30, 2017. On the governmental fund financial statements, delinquent real estate tax receivables that will not be collected within the 'available' period have been reported as 'deferred inflows of resources'.

On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. The primary expenditures deemed susceptible to accrual at June 30, 2017, are those which the Board of Education's intention was to expense these items as budgeted for the 2016-2017 official budget, and for which the District has incurred an obligation during 2017, but has not paid as of June 30, 2017.

Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds but are included as part of expenses in the government-wide statement of activities. Unused donated commodities are reported as unearned revenue

BUDGETS

In June of 2016, the Freeport Area School District adopted its fiscal year June 30, 2017 annual budget for the general fund totaling \$30,324,702 in accordance with the provisions of the Pennsylvania School Code. The budget is prepared utilizing the modified accrual method of accounting. Budgetary transfers among various expenditure line items can be performed by the District, as approved by the Board of Education, only during the last nine months of the fiscal year. The original and adjusted budgetary amounts are reflected in these financial statements (Exhibit G). All annual appropriations of the general fund lapse at fiscal year- end.

CASH AND CASH EQUIVALENTS

Cash and cash equivalents include amounts in demand deposit accounts and any other highly liquid, short-term investments, with original maturity terms of less than three months.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

INVESTMENTS

Under Section 440.1 of the Pennsylvania Public School Code of 1949, as amended, and PA Act 10 of 2016, Freeport Area School District is permitted to invest funds consistent with sound business practices in the following types of investments:

- I. Obligations of (a) the United States of American or any of its agencies or instrumentalities backed by the full faith and credit of the United States of America, (b) the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the Commonwealth of Pennsylvania, or (c) of any political subdivision of the Commonwealth of Pennsylvania or any of its agencies or instrumentalities backed by the full faith and credit of the political subdivision.
- II. Deposits in savings accounts, time deposits and share accounts of institutions insured by the Federal Deposit Insurance Corporation (FDIC) to the extent that such accounts are so insured and, for any amounts above the insured maximum, provided that approved collateral, as provided by law, is pledged by the depository.
- **III.** U.S. government obligations, short-term commercial paper issued by a public corporation, and banker's acceptances.

Investments of the Freeport Area School District include deposits pooled for investment purposes with the Pennsylvania Local Government Investment Trust (PLGIT) and the Pennsylvania School District Liquid Asset Fund (PSDLAF). Investments are reported at fair value.

There were no deposit and investment transactions during the year that were in violation of state statues.

SHORT-TERM INTERFUND RECEIVABLES/PAYABLES

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as 'due from/to other funds' on the governmental funds balance sheet. For the purposes of the government-wide statement of net position, governmental inter-fund receivables and payables have been eliminated. Amounts due between governmental activities and business-type activities, if any, are presented as off-setting internal balances on the statement of net position.

INVENTORIES

Inventories on the government-wide statement of net position (Exhibit A) and the proprietary fund statement of net position (Exhibit H) are recorded at a combination of actual cost and fair value on a first-in first-out basis. This inventory consists of purchased food and supplies and donated commodities from the U.S. Department of Agriculture as part of the food service program. The School District does not inventory the cost of such items as books and supplies, but rather records these items as an expenditure in the governmental funds and an expense in the government-wide statement of activities at the time of purchase.

CAPITAL ASSETS AND DEPRECIATION

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets are reported in the governmental activities column of the government-wide statement of net position.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

CAPITAL ASSETS AND DEPRECIATION (Continued)

Capital assets used by the proprietary fund are reported in both the business-type activity column of the government-wide statement of net position and on the proprietary fund statement of net position.

All capital assets are recorded at cost (or estimated historical cost). Donated fixed assets are recorded at estimated fair value at the time of receipt. The School District maintains a capitalization threshold of \$5,000. Management has elected to include certain homogeneous asset categories with individual assets less than \$5,000 as composite groups for financial reporting purposes. In addition, capital assets purchased with long-term debt may be capitalized regardless of the thresholds established. Routine repair and maintenance costs that do not add to the value of the asset or extend its useful life are charged as an expense in the government-wide statement of activities.

All reported capital assets, except land and construction in progress, are depreciated using the straight-line method over the following useful lives:

ASSET	YEARS
Buildings	40
Land Improvements	15
Furniture	20
Vehicles (Under 13,000 lbs)	8
Information Systems (computers and peripherals)	5
Data Handling Equipment	10
Textbooks	7
Library/workbooks	7
Telephone System	10
Music	10
Band Uniforms	10
Video/Cameras	10

The accounting and reporting treatment applied to the capital assets associated with a fund are determined by its measurement focus. Capital assets purchased by governmental funds are recorded as expenditures in the fund financial statements (Exhibit E). The results of capitalizing fixed assets net of depreciation on the government-wide statement of net position and statement of activities, as opposed to recording these same assets as an expenditure in the fund financial statements (Exhibit E), is reflected in the required reconciliations of fund balance to net position (Exhibit D) and the changes in fund balances to the changes in net position (Exhibit F).

LONG-TERM DEBT FINANCING COSTS

Bond issue costs are recorded as expenditures in the governmental fund financial statements in the year paid. The School District did not incur any bond issuance costs during the 2016-2017 year.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

COMPENSATED ABSENCES

Compensated Absences are granted to employees and accumulated in accordance with contractual and other legal requirements as follows:

- Unused vacation amounts are estimated based on estimated daily rates per unused day for various employee groups within the School District
- Sick leave is granted as appropriate (medical evidence required) with budgetary provision being made annually for the estimated cost of substitute personnel. Contractual provisions with professional employees require payment of \$2,000 severance pay for employees retiring with 20 years credited service, 15 years of which are in the Freeport Area School District, plus \$60 per day of accumulated sick leave. In addition, nonprofessional employees are entitled to severance pay for unused sick days computed as follows:
 - 1.) Employees retiring who have worked between 15 to 19 years in the District shall receive severance pay at \$25 per day of accumulated sick days, to a maximum of 150 days.
 - 2.) Employees retiring who have worked between 20 and 24 years in the District shall receive severance pay at \$30 per day of accumulated sick days, to a maximum of 150 days.
 - 3.) Employees retiring who have worked between 25 and 29 years in the District shall receive severance pay at \$35 per day of accumulated sick days, to a maximum of 150 days.
 - 4.) Employees retiring who have worked 30 years or more in the District shall receive severance pay at \$40 per day of accumulated sick days, to a maximum of 150 days.
 - 5.) Employees with a minimum of 15 years of continuous service in the District may elect to leave the severance pay with the employer to be used to purchase individual health care insurance to the maximum of the severance pay as described above. Such health care insurance coverage paid from severance pay shall commenced from the date of retirement and will continue until they qualify for Medicare or death or until complete use of the severance pay for premium payments, whichever event occurs first.

The School District incurs a liability for compensated absences which meet the following criteria:

- 1.) The School District's obligation relating to employee's rights to receive compensation for future absences is attributable to employee's services already rendered.
- 2.) The obligation relates to rights that vest or accumulate.
- 3.) Payment of the compensation is probable.
- 4.) The amount can be reasonably estimated.

Teachers do not receive paid vacations but are paid only for the number of days they are required to work each year (for 2016-2017 teacher workdays could not exceed 188 days).

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

COMPENSATED ABSENCES (Continued)

Other full-time employees (administrators, secretarial, custodial, etc.) are granted vacation leave in varying amounts. In the event of termination an employee is reimbursed for any unused accumulated leave. Vacation pay is charged to operations when taken by the employees of the district

In accordance with the above criteria the School District has accrued a liability for compensated absences which has been earned but not taken by School District employees.

At June 30, 2017, the liability for compensated absences, including benefits, for unused leaves to present employees is as follows:

Vacation Pay	\$	162,853
Sick Leave		701,824
Leaves of Absences		713,040
Total	\$ 1	,577,717

Compensated absences as of June 30, 2017 have been calculated in accordance with GASB Statement No. 16.

PENSIONS

For the purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public School Employees' Retirement System (PSERS), and additions to/deductions from PSERS's fiduciary net position have been determined on the same basis as they are reported by PSERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investment assets are reported at fair value. More information on pension activity is included in Note 10.

ACCRUED LIABILITIES AND LONG-TERM OBLIGATIONS

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements. For the business-type activities, these obligations and all similar obligations are reported again on the proprietary fund financial statement of net position (Exhibit H).

In general, payables and accrued liabilities that will be paid from governmental funds are reported on the governmental fund financial statements regardless of whether they will be liquidated with current resources. However, the non-current portion of compensated absences and retiree health benefits that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they will be paid with current, expendable, available financial resources. In general, liabilities that mature or come due for payment during the fiscal year are considered to have been paid with current available financial resources.

Bonds and other long-term obligations that will be paid from governmental funds are not recognized as a liability in the fund financial statements when due. The District's General Fund is typically used to liquidate long-term liability obligations.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

ACCRUED LIABILITIES AND LONG-TERM OBLIGATIONS (Continued)

The results of recognizing these long-term obligations as liabilities on the government-wide statement of net position and statement of activities, as opposed to recording these same obligations as an expenditure in the fund financial statements (Exhibit E) only when paid, is reflected in the required reconciliations of fund balance to net position (Exhibit D) and the changes in fund balances to the changes in net position (Exhibit F).

UNEARNED REVENUE

Unearned revenue arises when the District receives resources before it has legal claim to them. This occurs when grant monies are received prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the School District has a legal claim to the resources, the unearned revenue liability is removed and revenue is recognized.

DEFERRED OUTFLOWS AND INFLOWS OF RESOURCES

In addition to assets and liabilities, the statement of net position and/or the balance sheet will sometimes report a separate section for deferred outflows and/or inflows of resources. These separate financial statement elements represent a decrease and/or increase in net position that applies to a future period and so will not be recognized as an outflow and/or inflow of resources (expense/expenditure or income/revenue) in the current period.

NET POSITION

Net position is classified into three categories according to the external donor or legal restrictions or availability of assets to satisfy District obligations. Net position is classified as follows:

- Net Investment in Capital Assets This component of net position consists of capital assets net
 of accumulated depreciation, and reduced by the outstanding balances of debt that is attributable
 to the acquisition, construction and improvement of the capital assets, plus deferred outflows of
 resources less deferred inflows of resources related to those assets.
- Restricted Net Position This component of net position consists of restricted assets reduced by liabilities and deferred inflows related to those assets.
- Unrestricted Consists of net position that does not meet the definition of 'restricted' or 'net investment in capital assets'

When an expense is incurred that can be paid using either restricted or unrestricted resources (net position), the School District's policy is to first apply the expense toward restricted resources and then toward unrestricted resources.

FUND EQUITY

In the Balance Sheet – Governmental Funds (Exhibit C) fund balances are reported in specific categories to make the nature and extent of the constraints placed on any entity's fund balance more transparent in accordance with GASB No. 54, Fund Balance Reporting and Governmental Fund Type Definitions.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

FUND EQUITY (Continued)

The following classifications describe the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Nonspendable fund balance amounts that are not in a spendable form (such as inventory) or are required to be maintained intact. The non-spendable fund balance of \$27,078 represents inventory as of June 30, 2017.
- Restricted fund balance amounts constrained to specific purposes by their providers (such as grantors, bondholders, and high levels of government), through constitutional provisions, or by enabling legislation
- Committed fund balance amounts constrained to specific purposes by the School District itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the School District takes the same highest level action to remove or change the constraint. At June 30, 2017, management of the Freeport Area School District has committed \$3,000,000 of the General Fund balance for the purpose of deferred maintenance to district buildings and equipment, future retirement costs and accumulated postemployment benefits.
- Unassigned fund balance amounts that are available for any purpose
- Assigned fund balance amounts the School District intends to use for a specific purpose; intent
 can be expressed by the governing body or by an official or body to which the governing body
 delegates the authority. At June 30, 2017, management of the Freeport Area School District has
 assigned \$238 of the General Fund balance for student athletic activities.

The School District establishes (and modifies or rescinds) fund balance commitments by passage of an ordinance or resolution. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget document as a designation or commitment of the fund. The Board of Education has given authority to assign fund balance to the Business Manager.

When expenditures/expenses are incurred for purposes for which unrestricted (committed, assigned, and unassigned) resources are available, and amounts in any of these unrestricted classifications could be used, it is the District's general policy to spend the committed resources first, followed by assigned amounts and then unassigned amounts.

Act 48 of 2003 prohibits school districts from increasing real property taxes for the school year 2006-2007 or any subsequent school year, unless the school district has adopted a budget for such school year that includes an estimated ending unassigned fund balance which is not more than a specified percentage of the district's total budgeted expenditures. For the Freeport Area School District, estimated ending unassigned fund balance must not exceed 8.0% of total budgeted expenditures.

ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires the District's management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

OPERATING REVENUES AND EXPENSES

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary fund. For the Freeport Area School District, these revenues are food service charges for lunch and breakfast service. Operating expenses are the necessary costs incurred to provide the aforementioned food service. Non-operating revenues of the District's food service proprietary fund are state and federal subsidies, including donated commodities, received from the U.S. Department of Agriculture, and refund of prior year expenses. The District did not have non-operating expenses during the fiscal year.

ADOPTION OF GASB PRONOUNCEMENTS

The requirements of the following GASB Statements were adopted for the School District's 2016-2017 financial statements. Except where noted, the adoption of these pronouncements did not have a significant impact on the School District's financial statements.

GASB issued Statement No. 74, "Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans". The primary objective of this Statement is to address reporting by OPEB plans that administer benefits on behalf of governments. This Statement replaces Statement No. 43.

GASB issued Statement No. 75, "Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions". The primary objective of this Statement is to address reporting by governments that provide OPEB to their employees and for governments that finance OPEB for employees of other governments. This Statement replaces the requirements of Statement No. 45.

GASB issued Statement No. 77, "Tax Abatement Disclosures". The primary objective of this Statement is to require state and local governments for the first time to disclose information about tax abatement agreements, and is designed to provide financial statement users with essential information about these agreements and the impact that they have on a government's finances. The School District does not have any Tax Abatement Agreements as of June 30, 2017.

GASB issued Statement No. 78, "Pensions Provided through Certain Multiple- Employer Defined Benefit Pension Plans". The primary objective is to address a practice issue regarding the scope and applicability of Statement No. 68, "Accounting and Financial Reporting for Pensions." The issue is associated with pensions provided through certain multiple-employer defined benefit pension plans and to state or local government employers whose employees are provided with such pensions.

GASB issued Statement No. 79, "Certain External Investment Pools and Pool Participants". The primary objective of this Statement is to address accounting and reporting for certain external investment pools and pool participants. Specifically, it establishes criteria for an external investment pool to qualify for the election to measure all of its investments at amortized costs for financial reporting purposes. This pronouncement required additional disclosures related to investments, which have been incorporated into Note 2.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

ADOPTION OF GASB PRONOUNCEMENTS (Continued)

GASB issued Statement No. 80, "Blending Requirements for Certain Component Units- an amendment of GASB Statement No. 14". The primary objective of this Statement is to improve financial reporting by clarifying the financial statement presentation requirements for certain component units.

GASB issued Statement No. 82, 'Pension Issues- an amendment of GASB Statements No. 67, No. 68, and No. 73'. The primary objective of this Statement is to address certain issues that have been raised with respect to GASB Statements No. 67, "Financial Reporting for Pension Plans," No. 68, "Accounting and Financial Reporting for Pensions," and No. 73, "Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68."

PENDING GASB PRONOUNCEMENTS

In March of 2016, the GASB issued Statement No. 81, "Irrevocable Split-Interest Agreement". The primary objective of this Statement is to improve accounting and financial reporting for irrevocable split-interest agreements by providing recognition and measurement guidance for situations in which a government is a beneficiary of the agreement. The provisions of this Statement are effective for the School District's June 30, 2018 financial statements.

In November of 2016, the GASB issued Statement No. 83, 'Certain Asset Retirement Obligations'. The primary objective of this Statement is to provide financial statement users with information about 'asset retirement obligations (ARO) that were not addressed in GASB Standards by establishing uniform accounting and financial reporting requirements for these obligations. The provisions of this Statement are effective for the School District's June 30, 2019 financial statements.

In January of 2017, the GASB issued Statement No. 84, 'Fiduciary Activities'. The primary objective of this Statement is to enhance the consistency and comparability of fiduciary activity reporting by state and local governments. This Statement also is intended to improve the usefulness of fiduciary activity information primarily for assessing the accountability of governments in their roles as fiduciaries. The provisions of this Statement are effective for the School District's June 30, 2020 financial statements.

In March of 2017, the GASB issued Statement No. 85, 'Omnibus 2017'. The primary objective of this Statement is to improve consistency in accounting and financial reporting by addressing practice issues that have been identified during implementation and application of certain GASB Statements. The provisions of this Statement are effective for the School District's June 30, 2018 financial statements.

In May of 2017, the GASB issued Statement No. 86, 'Certain Debt Extinguishment Issues'. The primary objective of this Statement is to improve consistency in accounting and financial reporting for certain debt extinguishments and to enhance the decision-usefulness of that information. The provisions of this Statement are effective for the School District's June 30, 2018 financial statements.

In June of 2017, the GASB issued Statement No. 87, 'Leases'. The primary objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases; enhancing the comparability of financial statements between governments; and also enhancing the relevance, reliability (representational faithfulness), and consistency of information about the leasing activities of governments. The provisions of this Statement are effective for the School District's June 30, 2021 financial statements.

The effects of implementing the aforementioned GASB Statements on the School District's financial statements have not yet been determined.

NOTE 2 - CASH DEPOSITS AND INVESTMENTS

CASH DEPOSITS:

At June 30, 2017, Freeport Area School District had the following carrying values on its cash and cash equivalents accounts:

	Bank Balance Carryii			rrying Value
General Fund - Checking	\$	2,674,530	\$	2,390,578
General Fund - Petty Cash		-		800
General Fund - PLGIT		6,270,645		6,270,645
General Fund - PSDLAF		78,419		60,242
General Fund - INVEST		10,268		10,268
Debt Service Fund - PLGIT		72,774		72,774
Capital Projects Fund - Checking		1,437,331		1,437,331
Capital Projects Fund - PLGIT		345,191		345,191
Proprietary Fund		22,521		22,321
Agency Funds		186,107		183,968
	\$	11,097,786	\$	10,794,118
CD's shown as investments		989,572		989,572
	\$	12,087,358	\$	11,783,690

The difference between the bank balance and the carrying value represents year-end reconciling items such as deposits in transit and outstanding checks. The Federal Deposit Insurance Corporation (FDIC) coverage threshold for government accounts is \$250,000 per official custodian. This coverage includes checking and savings accounts, money market deposit accounts and certificates of deposit. Deposits in PLGIT, PSDLAF and INVEST are not covered by FDIC insurance.

The purpose of the Pennsylvania Local Government Investment Trust (PLGIT), and the Pennsylvania School District Liquid Asset Fund (PSDLAF) is to enable their available funds for investments authorized under the intergovernmental Cooperation Act of 1972. The funds operate in a manner consistent with the SEC's Rule 2(a) 7 of the Investment Company Act of 1940. The funds use amortized cost to report net position to compute share prices. These funds maintain net asset values of \$1 per share. Accordingly, the fair value of the position in these funds is the same as the value of these shares.

Custodial Credit Risk

Custodial credit risk is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a separate policy for custodial credit risk in addition to the requirements of State Law. As of June 30, 2017, \$4,040,489 of the District's bank balance total is exposed to custodial credit risk as this amount represents uninsured deposits collateralized with securities held by the pledging financial institution or by its trust department or agent, but not in the School District's name. In accordance with Act Number 72-1971 Session of the Commonwealth of Pennsylvania, the aforementioned deposits, in excess of \$250,000, are collateralized by securities pledged to a pooled public funds account with the Federal Reserve System. PLGIT deposits are not covered by FDIC insurance.

INVESTMENTS:

The fair value and maturity term of the District's investments as of June 30, 2017 is as follows:

Fair \	/alue		Stated aturity
\$	2,418	\$	2,418
	Fair \	Fair Value \$ 2,418	Fair Value Ma

NOTE 2 - CASH DEPOSITS AND INVESTMENTS (Continued)

INVESTMENTS: (Continued)

Custodial Credit Risk:

For an investment, custodial credit risk is the risk that in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral security that are in the possession of an outside party. The District does not have a specific policy that would limit its investment choices to those with certain credit ratings.

Interest Rate Risk:

The District has no formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk:

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The District has no formal investment policy, in addition to the requirements of the Pennsylvania School Code that limits its investment choices based on credit ratings by nationally recognized rating organizations.

Concentration of Credit Risk:

The School District places no limit on the amount it may invest in any one issuer, but the Board of Directors shall be notified of such investments.

NOTE 3 - PROPERTY TAXES

The Freeport Area School District levies property taxes July 1 of each fiscal year. The tax millage assessment for the 2016-2017 fiscal year was 61.2 for Armstrong County (Freeport Borough and South Buffalo Township) and 142.6 for Butler County (Buffalo Township), which represents \$61.20 and \$142.60 respectively of revenue for every \$1,000 of assessed property value. Taxpayers are entitled to a 2% discount if taxes are paid prior to October 1st. Collections beginning December 1st are assessed a 10% penalty. Unpaid taxes are submitted to the District's county tax claim bureau. Tax collectors are required under Act 169 of the Commonwealth of Pennsylvania to submit a reconciliation of their tax duplicate to the District by January 15th of the year following levy.

A summary of the collection percentage by municipality is as follows:

	FACE	FACE	PERCENT
	AMOUNT	AMOUNT	OF LEVY
MUNICIPALITY	LEVIED	COLLECTED	COLLECTED
Buffalo Township	\$ 9,749,798	\$ 9,514,077	97.6%
Freeport Borough	986,352	902,210	91.5%
South Buffalo Township	3,488,622	3,293,599	94.4%
	\$ 14,224,772	\$ 13,709,886	96.4%

The total amount of the levy returned to the County Tax Claim Bureau was \$514,886 which is 3.62% of the total amount levied for tax year 2016-2017.

NOTE 3 - PROPERTY TAXES (Continued)

Taxes receivable as shown in the government-wide statement of net position includes delinquent property taxes of \$938,322. For purposes of the governmental fund financial statements, \$844,603 of the delinquent property taxes receivable, although measurable, does not meet the available criteria to finance current fiscal year operations. Accordingly, this amount is equally off-set as a credit to deferred inflow of resources in the fund financial statements.

The effect of recognizing property tax revenue when taxes are levied, as opposed to when they are received using the 'measurable and available' criteria under the modified accrual basis of accounting, is reflected in the required reconciliations of fund balance to net position (Exhibit D) and the changes in fund balances to the changes in net position (Exhibit F).

Taxes receivable are comprised of the following at June 30, 2017:

	 ERNMENTAL CTIVITIES	GOVERNMENTAL FUNDS			
Delinquent Real Estate (60 Days)	\$ 93,720	\$	93,720		
Delinquent Real Estate (Prior Years)	844,603		844,603		
Interim Real Estate Taxes	251		251		
EIT	7,924		7,924		
LST	186,997		78		
Deed Transfer Taxes	 21,500		21,500		
	\$ 1,154,995	\$	968,076		

NOTE 4 – DUE FROM OTHER GOVERNMENTS

The amount of 'due from other governments', as reflected on the government-wide statement of net position and the governmental funds balance sheet, is comprised of the following:

Carrama antal

	 Activities		
Commonwealth of Pennsylvania:			
State Subsidies	\$ 1,091,856		
Federal Pass-Through Grants	49,158		
Other Intergovernmental Receivables	 100,105		
	\$ 1,241,119		

NOTE 5 – UNEARNED REVENUE

Unearned revenue totaling \$28,216, as reflected on the government-wide statement of net assets (Exhibit A) and the proprietary fund statement of net position (Exhibit H) is comprised of \$18,409 paid on student accounts and \$9,807 of donated commodities inventory of the District's Food Service Fund.

NOTE 6 - OTHER ACCOUNTS RECEIVABLE

The amount of 'other accounts receivable' totaling \$120,452, as reflected on the government-wide statement of net position, the governmental funds balance sheet, and the proprietary fund statement of net position, is comprised of \$37,779 due on student food service accounts and \$82,673 miscellaneous revenues due from various sources.

NOTE 7 – INTER-FUND OBLIGATIONS AND TRANSFERS

During the fiscal year 2016-2017, the General fund transferred \$3,008,073 to the Debt Service Fund for payment of District debt and transferred \$2,000,000 to the Capital Project Fund to be used for various capital projects.

Inter-fund receivables and payables as reflected on the governmental funds balance sheet (Exhibit C), proprietary fund statement of net position (Exhibit H), and fiduciary fund statement of net position (Exhibit K) are comprised of the following:

	RECEIVABLE		P	AYABLE
General Fund	\$	90,191	\$	335,330
Capital Projects Fund		335,330		-
Food Service Fund		-		67,993
Activities Fund		-		22,198
	\$	425,521	\$	425,521

The interfund receivables and payables are expected to be paid back within one year.

NOTE 8 - CAPITAL ASSETS

A summary of the governmental fixed asset activity for the 2016-2017 fiscal year was as follows:

		Balance 7/1/2016 Additions			Deductions/ djustments_	Balance 6/30/2017			
Governmental Activities									
Land	\$	823,039	\$	-	\$ -	\$	823,039		
Land Improvements		6,107,896		4,158,179	-		10,266,075		
Building and Improvements		28,492,204		697,786	-		29,189,990

NOTE 8 - CAPITAL ASSETS (Continued)

Depreciation expense was charged to governmental functions as follows:

Instruction	\$ 842,057
Instructional Student Support	88,775
Administrative and Financial Support Services	134,543
Operation and Maintenance of Plant Services	82,519
Student Activities	 25,902
	\$ 1,173,796

NOTE 9 - LONG-TERM LIABILITIES

GENERAL OBLIGATION NOTE - SERIES G OF 2005

In August of 2005, the Freeport Area School District entered into a loan agreement with the Emmaus General Authority/PLGIT Bond Pool Program for \$19,500,000 for the purpose of (1) currently refunding a portion of the District's outstanding Series of 2000 note and all amounts disbursed under the line of credit in order to substitute the temporary financing evidenced by the 2000 note and the line of credit with long-term financing evidenced by the issues of bonds, (2) planning, designing, acquiring, constructing, equipping and furnishing additions, alterations and/or renovations to the District's school buildings and (3) pay the remarketing costs.

GENERAL OBLIGATION NOTE - SERIES OF 2014

On August 14, 2014, the Freeport Area School District entered into a loan agreement with the Emmaus General Authority/PLGIT Bond Pool Program in the amount of \$20,300,000 for the purpose of (1) paying the costs of planning, designing, and constructing a new middle school, 629 South Pike Road, Sarver, PA 16055, and (2) paying the costs of issuing the Note. The Note shall bear interest from its date of issuance on the unpaid principal amount thereof at a variable rate provided in the Liquidity Facility Agreement, but in no event shall such variable rate exceed the maximum rate of 25% per annum. The note is scheduled to mature on February 1, 2028.

GENERAL OBLIGATION NOTE - SERIES A OF 2014

On December 18, 2014, the Freeport Area School District entered into a loan agreement with the Emmaus General Authority/PLGIT Bond Pool Program in the amount of \$5,900,000 for the purpose of (1) financing a portion of the costs of planning, designing, and constructing a new middle school as referenced above, and (2) paying the costs of issuing the note. The Note shall bear interest from its date of issuance on the unpaid principal amount thereof at a variable rate provided in the Liquidity Facility Agreement, but in no event shall such variable rate exceed the maximum rate of 25% per annum. The note is scheduled to mature on February 1, 2030.

NOTE 9 - LONG-TERM LIABILITIES (Continued)

GENERAL OBLIGATION BONDS - SERIES OF 2015

On February 3, 2015, the Freeport Area School District issued General Obligation Bonds, Series of 2015 totaling \$9,995,000. The purpose of the bond issue is to **(1)** pay a portion of the costs of acquiring and constructing additions, alterations, and renovations which constitute the Freeport Area School District Middle School and adjoining athletic facilities, and **(2)** pay the costs associated with issuing the bonds. Interest rates range between .650% and 3.050% with the bonds scheduled to mature on February 1, 2033. The bonds provide for early redemption options for the school district for those bonds maturing on or after February 1, 2024.

A summary of the Freeport Area School District's general obligation notes and bond outstanding at June 30, 2017 is as follows:

	SERIES										
YEAR END		2005G		2014		2014A	2015				
JUNE 30,	P	RINCIPAL	P	PRINCIPAL	PRINCIPAL		F	PRINCIPAL

NOTE 10 - PENSION PLAN

PSERS

The Freeport Area School District participates in the Public School Employees' Retirement System (PSERS). PSERS is a component unit of the Commonwealth of Pennsylvania. A brief description of the plan, and summary of the plan's provisions, are as follows:

Plan Description

PSERS is a governmental cost-sharing multiple-employer defined-benefit plan that provides retirement benefits to public school employees of the Commonwealth of Pennsylvania. The members eligible to participate in the System include all full-time public school employees, part-time hourly public school employees who render at least 500 hours of service in the school year, and part-time per diem public school employees who render at least 80 days of service in the school year in any of the reporting entities in Pennsylvania. PSERS issues a publicly available financial report that can be obtained at www.psers.state.pa.us.

Benefits Provided

PSERS provides retirement, disability, and death benefits. Members are eligible for monthly retirement benefits upon reaching (a) age 62 with a least 1 year of credited service; (b) age 60 with 30 or more years of credited service; or (c) 35 or more years of service regardless of age. Act 120 of 2010 (Act 120) preserves the benefits of existing members and introduced benefit reductions for individuals who become new members on or after July 1, 2011. Act 120 created two new membership classes, Membership Class T-E (Class T-E) and Membership Class T-F (Class T-F). To qualify for normal retirement, Class T-E and Class T-F members must work until age 65 with a minimum of three years of service or attain a total combination of age and service that is equal to or greater than ninety-two with a minimum of thirty-five years of service. Benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service.

For members whose membership started prior to July 1, 2011, after completion of five years of service, a member's right to the defined benefits is vested and early retirement benefits may be elected. For Class T-E and Class T-F members, the right to benefits is vested after ten years of service.

Participants are eligible for disability retirement benefits after completion of five years of credited service. Such benefits are generally equal to 2% or 2.5%, depending upon membership class, of the member's final average salary (as defined in the Code) multiplied by the number of years of credited service, but not less than one-third of such salary nor greater than the benefit the member would have had at normal retirement age. Members over normal retirement age may apply for disability benefits.

Death benefits are payable upon the death of an active member who has reached age 62 with at least one year of credited service (age 65 with at least three years of credited service for Class T-E and Class T-F members) or who has at least five years of credited service (ten years for Class T-E and Class T-F members). Such benefits are actuarially equivalent to the benefit that would have been effective if the member had retired on the day before death.

NOTE 10 - PENSION PLAN (Continued)

Contribution Rates

Member Contributions - Active members who joined the System prior to July 22, 1983, contribute at 5.25% (Membership Class TC) or at 6.5% (Membership Class TD) of the member's qualifying compensation. Members who joined the System on or after July 22, 1983 and who were active or inactive as of July 1, 2001, contribute 6.25% (Membership Class TC) or at 7.5% (Membership Class TD) of the members qualifying compensation. Members who joined the System after June 30, 2001 and before June 1, 2011, contribute at 7.5% (automatic Membership Class TD). For all new hires and for members who elected Class T-D membership, the higher contribution rates began with service rendered on or after January 1, 2002. Members who joined the System after June 30, 2011 automatically contribute at the Membership Class T-E rate of 7.5% (base rate) of the member's qualifying compensation. All new hires after June 30, 2011, who elect Class T-F membership, contribute at 10.30% (base rate) of the member's qualifying compensation. Membership Class T-E and Class T-F are affected by a 'shared risk' provision in Act 120 of 2010 that in future years could cause the Membership Class T-E contribution rate to fluctuate between 7.50% and 9.50% and Membership Class T-F contribution rate to fluctuate between 10.3% and 12.30%.

Employer Contributions – The School District's contractually required contribution rate for fiscal year ended June 30, 2017 was 29.20% of covered payroll, actuarially determined as an amount that, when combined with employee contributions, is expected to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. Contributions to the pension plan from the employer were \$3,870,066 for the year ended June 30, 2017.

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions</u>

At June 30, 2017, the School District reported a liability of \$46,881,000 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2016, and the total pension liability used to calculate the net pension liability was determined by rolling forward the System's total pension liability as of June 30, 2015 to June 30, 2016. The School District's proportion of the net pension liability was calculated utilizing the employer's one-year reported covered payroll as it relates to the total one-year reported covered payroll. At June 30, 2016, the School District's proportion was .0946%, which was an decrease of .0003% from its proportion measured as of June 30, 2015.

For the year ended June 30, 2017, the School District recognized pension expense of \$5,145,619. At June 30, 2017, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

NOTE 10 - PENSION PLAN (Continued)

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of

Deferred Outflows of Resources			red Inflows Resources
	_		_
\$	-	\$	391,000
	1,692,000		-

Resources Related to Pensions (Continued)

The \$3,763,101 reported as deferred outflows of resources related to pensions resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2018.

Other amounts reported as deferred inflows/outflows of resources related to pensions will be recognized in pension expense as follows:

Measurement	Reporting	
Date	Date	
Year ended	Year ended	Amortization
June 30,	June 30,	Amount
2016	2017	\$ 1,048,000
2017	2018	1,048,000
2018	2019	1,589,000
2019	2020	958,000

Changes in Actuarial Assumptions

The total pension liability as of June 30, 2016 was determined by rolling forward the System's total pension liability as of the June 30, 2015 to June 30, 2016 using the following actuarial assumptions, applied to all periods included in the measurement:

Changes in assumptions used in measurement of the Total Pension Liability beginning June 30, 2016

- The Investment Rate of Return was adjusted from 7.50% to 7.25%
- The inflation assumption was decreased from 3.0% to 2.75%
- Salary growth changed from an effective average of 5.50%, which was comprised of inflation of 3.00%, real wage growth and for merit or seniority increases of 2.50%, to an effective average of 5.00%, comprised of inflation of 2.75% and 2.25% for real wage growth and for merit or seniority increases

NOTE 10 - PENSION PLAN (Continued)

Changes in Actuarial Assumptions (Continued)

• Mortality rates were modified from the RP-2000 Combined Healthy Annuitant Tables (male and female) with age set back three (3) years for both males and females to the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MP-2015 Mortality Improvement Scale. For disabled annuitants the RP-2000 Combined Disabled Tables (male and female) with age set back 7 years for males and 3 years for females to the RP-2014 Mortality Tables for Males and Females, adjusted to reflect PSERS' experience and projected using a modified version of the MD-2015 Mortality Improvement Scale. The actuarial assumptions used in the June 30, 2016 valuation were based on the experience study that was performed for the five-year period ending June 30, 2015. The recommended assumption changes based on this experience study were adopted by the Board at its June 10, 2016 Board meeting, and were effective beginning with the June 30, 2016 actuarial valuation.

Investment Asset Allocation

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The pension plan's policy in regard to the allocation of invested plan assets is established and may be amended by the Board. Plan assets are managed with a long-term objective of achieving and maintaining a fully funded status for the benefits provided through the pension.

		Long-Term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
Global public equity	22.5%	5.30%
Fixed Income	28.5%	2.10%
Commodities	8.0%	2.50%
Absolute return	10.0%	3.30%
Risk parity	10.0%	3.90%
Infrastructure/MLP's	5.0%	4.80%
Real estate	12.0%	4.00%
Alternative investments	15.0%	6.60%
Cash	3.0%	0.20%
Financing (LIBOR)	-14.0%	0.50%
	100%	

The above was the Board's adopted asset allocation policy and best estimates of geometric real rates of return for each major asset class as of June 30, 2016.

NOTE 10 - PENSION PLAN (Continued)

Discount Rate

The discount rate used to measure the total pension liability was 7.25%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from employers will be made at contractually required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the School's proportionate share of the net pension liability to changes in the discount rate

The following presents the net pension liability, calculated using the discount rate of 7.25%, as well as what the net pension liability would be if it were calculated using a discount rate that is 1-percentage point lower (6.25%) or 1-percentage-point higher (8.25%) than the current rate:

	Current		
	1% Discount		1%
	Decrease	Rate	Increase
	6.25%	7.25%	8.25%
School District's proportionate sha	are of		
the net pension liability	\$ 57,348,000	\$ 46,881,000	\$ 38,085,000

Pension plan fiduciary net position

Detailed information about PSERS' fiduciary net position is available in PSERS Comprehensive Annual Financial Report which can be found on the System's website at www.psers.state.pa.us.

NOTE 11 - EARLY RETIREMENT INCENTIVE PLAN

The Board of School Directors has agreed to continue its "Early Retirement Incentive Plan" (ERIP) for all full-time professional employees with a retirement date effective September 1, 2015 through June 30, 2020.

- 1) Eligibility for the ERIP shall be as follows:
 - The professional employee must be on Step 15 of the salary scale in the collective Bargaining Agreement (CBA) of August 23, 2015.
 - The professional employee must submit a letter of retirement to the Superintendent of Schools no later than April 1, in the year of retirement, to be effective by June 30, for the same year; and no later than November 1, in the year of retirement, to be effective by the end of the first semester.
 - A professional employee who qualifies and has filed for permanent disability retirement under the PSERS shall not be eligible for the ERIP.

NOTE 11 - EARLY RETIREMENT INCENTIVE PLAN (Continued)

- Eligible professional employees must retire from the PSERS on or before June 30, in the
 year of retirement, and submit copies of all necessary documents to the Superintendent of
 Schools prior to June 30, in the year of retirement.
- The Freeport Area School District reserves the right to revise, rescind and/or modify the eligibility requirements stated herein in the event of amendments to the retirement provisions of PSERS.
- 2) The eligible professional employee who elects to participate in the ERIP shall receive the following:
 - As a sum of \$417 per month for sixty (60) continuous months for a maximum of \$25,000 to be paid beginning in July in the year of retirement as a non-elective contribution to a 403 (b) plan, with no cash option. The professional employee must retire before or in the year they first attain superannuation, or up to one year later, as currently defined by the PSERS in order to be eligible to receive the aforementioned monies.
 - A maximum credit of \$500 per month to be applied toward payment of the premium for new retirees who qualify, at the employee's current coverage under the Freeport Area School District's Health Care Plan.
 - The professional employee will pay to Freeport Area School district the full amount of the PSERS health care reimbursement for which they are eligible to receive.
 - The maximum credit of \$500 per month shall be payable during the life of the retiree up to age 65 or they become eligible for Medicare, whichever occurs first.
 - The maximum credit of \$500 per month shall not exceed a period of one hundred and twenty (120) continuous months from the date of retirement.
 - Retirees currently eligible for health insurance benefits must enroll in the current Freeport
 Area School District health care plan provided to active employees, said enrollment to
 continue through the remainder of their eligibility to receive health insurance benefits.
 - The professional employee's spouse shall be eligible for the Freeport Area School District
 Health Care Plan in accordance with COBRA legislation in effect when the retired
 employee's health care benefits terminate.

The above benefits are financed on a pay-as-you-go basis. The following is a summary of the number of currently eligible participants and the amount of expenditures recognized during the year:

	He	alth Care
	В	enefits
Amount of benefit expenditures for the year paid by District	\$	18,600
Amount of benefit expenditures for the year paid by Retiree		77,845
Number of participants currently eligible		17

NOTE 12 – JOINTLY GOVERNED ORGANIZATIONS

LENAPE AREA VOCATIONAL TECHNICAL SCHOOL

The Freeport Area School District, in conjunction with three other School Districts (Armstrong, Freeport and Apollo Ridge) funds the operating budget of the Lenape Area Vocational Technical School (Vo-Tech). The Vo-Tech is designed to teach students from member districts trade related professions. Each district's share of tuition is based on the percentage of the district's enrollment to the total enrollment at the Vo-Tech. The Vo-Tech's Joint Operating Committee is comprised of three appointed board members from the Armstrong School District and two appointed members from each of the other Districts. The Freeport Area School District contributed \$353,932 to the Vo-Tech for the year ended June 30, 2017. The Vo-Tech issues separate financial statements annually, a copy of which can be obtained by contacting the Lenape Area Vocational Technical School's business office at 2215 Chaplin Avenue, Ford City, Pa. 16226.

ARIN INTERMEDIATE UNIT 28

The Freeport Area School District, in conjunction with ten other School Districts located in Armstrong and Indiana County, participates in the ARIN Intermediate Unit 28. The ARIN Intermediate Unit is mainly designed to provide special education, adult education, and non-public school services to the participating districts. Each school district appoints one member to the Board of Directors of the Intermediate Unit. The Freeport Area School District contributed \$98,319 to the ARIN Intermediate Unit 28 as part of deductions from its 2016-2017 basic education subsidy. The Intermediate Unit issues separate financial statements annually, a copy of which can be obtained by contacting the ARIN Intermediate Unit 28 business office at 2895 West Pike, Indiana, Pa. 15701.

NOTE 13 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSION

PLAN DESCRIPTION

The Freeport Area School District administers a single-employer defined benefit healthcare plan (the Plan). The Plan provides for post-employment health care benefits to all eligible employees per the terms of the District's collective bargaining agreement with the Freeport Area Education Association.

To be eligible, teachers and administrators must have fifteen (15) years of credit eligibility in the retirement system or under Act 110/43 and support staff is eligible under Act 110/43. The program was established under the Early Retirement Incentive Program provided by The Freeport Area School District Board of Directors. The program entitles eligible employees to various health care benefits during the period between retirement and attaining Medicare age. The Plan is unfunded and no financial report is prepared. These benefits are accounted for in accordance with GASB Statement No. 75, Accounting and Financial Reporting by Employers for Post-employment Benefits Other Than Pensions.

FUNDING POLICY

The contribution requirements of plan members and the School District are established and may be amended by the Freeport Area Board of Directors. The plan is funded on a pay-as-you-go basis, i.e. premiums are paid to fund the health care benefits provided to eligible participants. For teachers and administrators, the District's paid coverage for retirees continues until age 65, death, or qualification for Medicare if earlier, for a maximum of 120 continuous months from the date of retirement.

During the District's paid coverage period, the retiree is required to remit the PSERS premium assistance amount to the District.

NOTE 13 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSION (Continued)

EMPLOYEES COVERED BY BENEFIT TERMS

As of June 30, 2017, the following employees were covered by the benefit terms:

Active employees	185
Retirees	15_
Total	200

The District's total OPEB liability of \$4,396,034 was measured as of June 1, 2016, and was determined by an actuarial valuation performed as of June 1, 2016.

ACTUARIAL ASSUMPTIONS AND OTHER INPUTS

The total OPEB liability in the June 30, 2016 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	3.00%
Salary Increases	2.50%
Discount Rate	2.85%
Healthcare Cost Trend Rate	7.00%
Long-term Trend Rate	4.50%
Terminal Trend Year	2024

The discount rate was based on the Bond Buyers 20-Bond Index.

Mortality rates for active members were based on the RPH-2014 Total Dataset Mortality Table projected using Scale MP-2016.

CHANGES IN THE TOTAL OPEB LIABILITY

Balance at July 1, 2016	\$ 4,582,979
Changes for the year:	
Service cost	285,382
Interest	148,947
Changes of benefit terms	-
Differences between expected and	
actual experience	(324,617)
Changes in assumptions or other inputs	48,343
Benefit payments	(345,000)
Net Changes	(186,945)
Balance at June 30, 2017	\$ 4,396,034

Changes in assumptions and other inputs reflect a change in the discount rate from 3.25% in 2015 to 2.85% in 2016.

NOTE 13 - POSTEMPLOYMENT BENEFITS OTHER THAN PENSION (Continued)

Sensitivity of the total OPEB liability to changes in the Discount Rate

The following presents the net OPEB liability, calculated using the discount rate of 2.85%, as well as what the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage point lower (1.85%) or 1-percentage-point higher (3.85%) than the current rate:

	Current		
	1%	Discount	1%
	Decrease	Rate	Increase
	1.85%	2.85%	3.85%

2018	2019		(17,268)
2019	2020		(17,268)
2020	2021		(17,268)
2021	2022		(17,268)
2022 and beyond	2023 and beyond		(172,666)

NOTE 14 - RISK MANAGEMENT

GENERAL INSURANCE

The Freeport Area School district is exposed to various risks of loss related to tort; theft of, damage to, and destruction of assets, errors and omissions; injuries to employees; and natural disasters. These risks are covered by commercial insurance purchased from independent third parties. Settled claims for these risks have not exceeded commercial insurance coverage for the past three years.

HEALTH INSURANCE

The Freeport Area School District is one of fourteen local educational agency members of the Armstrong Indiana Insurance Trust (AIIT), a public entity risk pool created on July 1, 1998 designed to administer health and medical insurance risks on a pooled basis.

Effective July 1, 2000, AIIT entered into an Administrative Service Contract (ASC) with Highmark Blue Cross-Blue Shield (self-insured medical/prescription insurance coverage). Stop-loss insurance coverage, for both specific and aggregate claim losses, is maintained to limit liability exposure. Specific coverage is for claim losses over \$200,000.

Aggregate coverage is based on claim losses over 120% of an annual composite factor used for single and family coverage under PPO medical plans. Specific and aggregate stop-loss insurance covers claims incurred over the fiscal year (July 1 through June 30) and paid within a fifteen month period.

AllT has established three levels of reserve for potential long-term losses; a Termination Liability Reserve (TLR), a Claims Contingency Reserve (CCR) and a Rate Stabilization Reserve (RSR). TLR represents reserve funds necessary to cover run-out claims for a period of 60 days of average claims and related expenses to be adjusted annually. The CCR is an amount held in excess of the TLR, not to exceed 250% of the expected claims for the next fiscal year as calculated by Highmark Blue Cross Blue Shield. The RSR includes any funds accumulated beyond 50% of the prior year's annual premium.

NOTE 14 - RISK MANAGEMENT (Continued)

As of June 30, 2016 (latest available), AlIT net position totaled \$16,143,949, of which Freeport Area School District's share was \$1,034,791 (6.41%). The amount available for distribution to the District is \$435,385. The remaining \$599,406 of the District's share of the net position is being held as a claims contingency reserve. The District's premium contributions for the 2016-2017 year were \$3,014,498. PPO monthly coverage averaged 187 employees with a monthly average premium of \$1,199. The AIIT issues separate financial statements annually, a copy of which can be obtained by contacting the ARIN Intermediate Unit 28 business office at 2895 West Pike, Indiana, Pa. 15701.

NOTE 15 - CONTINGENCIES

STATE AND FEDERAL SUBSIDIES

The Freeport Area School District state and federally funded programs are subject to audit by various governmental agencies. The District is potentially liable for any expenditure disallowed by the results of these audits. Management is not aware of any items of noncompliance which would result in the disallowance of program expenditures.

LITIGATION

Each year many real estate assessment appeals are filed concerning real estate situated within the District. The amount of the aggregate reductions in assessments claimed in the pending tax appeals is not considered to be substantial in relation to the overall tax base of the District.

NOTE 16 – RESTATEMENT OF NET POSITION

For the fiscal year ended June 30, 2017 the District implemented GASB 75, *Accounting and Financial Reporting for Postemployment Benefits other Than Pensions*. The implementation of Statement No. 75 resulted in the reporting of a deferred postemployment outflow of resources, postemployment liability and deferred postemployment inflow of resources related to the District's single-employer defined benefit other postemployment plan.

Accordingly, the School District's net position as of July 1, 2016 was restated as follows:

NET POSITION AS PREVIOUSLY REPORTED 6/30/16	\$ (16,293,090)
GASB Statement No. 75 implementation:	
Beginning plan liability under GASB Statement No. 75	(4,582,979)
Beginning plan liability under GASB Statement No. 45	 3,174,532
NET POSTION AS RESTATED JULY 1, 2016	\$ (17,701,537)

NOTE 17 – SUBSEQUENT EVENTS

Management has determined that there are no events subsequent to June 30, 2017 through December 13, 2017, the date of the 'Independent Auditor's Report' date, which is the date the financial statements were available to be issued, that require additional disclosure in the financial statements.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Management and Board of Education Freeport Area School District

I have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standard* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Freeport Area School District as of and for the year ended June 30, 2017, and the related notes to the financial statements, which collectively comprise Freeport Area School District's basic financial statements, and have issued my report thereon dated December 13, 2017.

Internal Control over Financial Reporting

In planning and performing my audit of the financial statements, I considered the Freeport Area School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing my opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Freeport Area School District's internal control. Accordingly, I do not express an opinion on the effectiveness of the Freeport Area School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the Freeport Area School District's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

My consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during my audit I did not identify any deficiencies in internal control that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

To the Board of Education Freeport Area School District

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Freeport Area School District's financial statements are free of material misstatement, I performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of my audit, and accordingly, I do not express such an opinion. The results of my tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

This purpose of this report is solely to describe the scope of my testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Freeport Area School District's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Freeport Area School District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

To the Board of Education Freeport Area School District

REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM

I have audited the Freeport Area School District's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the Freeport Area School District's major federal programs for the year ended June 30, 2017. The Freeport Area School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

My responsibility is to express an opinion on compliance for each of the Freeport Area School District's major federal programs based on my audit of the types of compliance requirements referred to above. I conducted my audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that I plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Freeport Area School District's compliance with those requirements and performing such other procedures as I considered necessary in the circumstances.

I believe that my audit provides a reasonable basis for my opinion on compliance for each major federal program. However, my audit does not provide a legal determination on the Freeport Area School District's compliance.

Opinion on Each Major Federal Program

In my opinion, Freeport Area School District complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2017.

REPORT ON INTERNAL CONTROL OVER COMPLIANCE

Management of Freeport Area School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing my audit of compliance, I considered the Freeport Area School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing my opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, I do not express an opinion on the effectiveness of the Freeport Area School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

My consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. I did not identify any deficiencies in internal control over compliance that I consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of my testing of internal control over compliance and the results of that testing based on the requirements of Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

FREEPORT AREA SCHOOL DISTRICT NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS JUNE 30, 2017

NOTE 1 – BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the 'Schedule') includes the federal grant activity administered by the Freeport Area School District for the year ended June 30, 2017. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Grant Guidance – UGG). Because the Schedule presents only a selected portion of the operations of the School District, it is not intended to and does not present the financial position or changes in net position of the Freeport Area School District.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING

Expenditures reported on the Schedule are presented using the accrual method of accounting. Under this method, grant revenue is recognized to the extent expenditures are incurred. Expenditures are recognized when the liability for the expenditure is incurred rather than when the disbursement is actually made.

The federal expenditures are recognized, as applicable, under the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles and Audit Requirements for Federal Awards, wherein certain types of expenditures are not allowable or limited to reimbursement.

NOTE 3 - RELATIONSHIP TO FINANCIAL STATEMENTS

Federal financial award revenues are included in the financial statements as 'local source' and 'federal source' revenues.

NOTE 4 – RECEIVABLES AND UNEARNED REVENUE

Federal grants receivable are included as part of 'due from other governments' in Exhibit A and Exhibit C as referenced in Note 4 to the Financial Statements. Unearned federal grant revenue, if any, is included as part of 'unearned revenue' in Exhibit A and Exhibit C, and is referenced in Note 5 to the Financial Statements.

NOTE 5 - NON-CASH ASSISTANCE

The Freeport Area School District received donated commodities from the Department of Agriculture in connection with its food service program. The amount of non-cash assistance expended in the accompanying schedule of expenditures of federal awards reflects the fair market value of the commodities used during the 2016-2017 fiscal year.

NOTE 6 – INDIRECT COST RATE

The District has elected not to use the 10% de minimis indirect cost rate allowed under the Uniform Guidance.

FREEPORT AREA SCHOOL DISTRICT SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED JUNE 30, 2017

FREEPORT AREA SCHOOL DISTRICT STATUS OF PRIOR AUDIT FINDINGS FOR THE YEAR ENDING JUNE 30, 2017

The audit report of the Freeport Area School District for the year ended June 30, 2016, dated February 1, 2017, contained the following audit finding:

FINDING 2016-1 – POLICIES AND PROCEDURES REQUIRED BY THE UNIFORM GUIDANCE

CONDITION: Effective for the 2015-2016 fiscal year, the School District was required to adopt applicable fiscal policies and procedures as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). These policies and procedures were not adopted and implemented by the School District during the 2015-2016 fiscal year.

CURRENT STATUS: During the 2016-2017 fiscal year, the School District adopted applicable fiscal policies and procedures as required by Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance).
